Shooting case goes to coroner

Officials mum on outcome of investigation

By Jack C. Ventimiglia
Executive editor

MADISON—Two weeks could pass before the public learns if three persons were murdered or if another factor will explain why they were fatally shot Nov. 17.

The Major Case Squad of Greater St. Louis pulled out of Madison at 5 p.m. Friday after giving Police Chief Charles Bridick the results of 550 hours of investigating.

THE INFORMATION will be given to Madison County Coroner Dallas Burke who said Friday evening she would not comment on

speculation that the case is a double homicide/suicide, or that the Major Case Squad might have stayed longer if there was any indication that a killer was at large.

"You can draw your own conclusions," she said. "I'm not going to say."

The investigation will continue in Madison to "tie up a few loose ends," Bridick said Friday.

AFTER STATING where the bodies were located in the Sturges home, Bridick would not release where in the home the weapon believed to have been used in the shootings was found.

"I'm not going to say that," he said. "It would have a big bearing." Hugh C. Stuart, 84, and his wife, Bertie, 80, both of 1623 Third St. in Madison, together with their daughter, Mrs. Ruth Ann Rapoff, 49, of Granite City, were found fatally wounded at the Sturges' home. Each had been shot in the chest, Burke said.

A CORONER'S jury will be called to draw a conclusion from the evidence, probably within two weeks, Burke said.

After a thorough review of the investigation of this case a conclusion has been reached by the Major Case

Squad as to the circumstances surrounding the deaths of all three family members," according to a release from the Major Case Squad. The Major Case Squad would not release its findings to the public, avoid the possibility that it would "influence members of the Coroners Jury."

BRIDICK SAID people do not seem to be worried about their safety as a result of the slayings.

"I think there's a lot of people in town who've drawn their own conclusions," he said. "We've not gotten a lot of telephone calls."

Steps being taken for senior office

By Bill Bagby
Staff writer

GRANITE CITY—Steps are being taken to implement an information and referral office for senior citizens in Granite City.

The Granite City Senior Citizen Advisory Committee approved two job descriptions at its meeting Nov. 20.

THE FIRST job description is for a person who would develop an informational and referral cross-index file of services available to seniors in the city.

The file would list the name, address and phone number of the agencies providing services, the purpose of the agency, services available, eligibility requirements and the name of a contact person, said committee Chairman Bill Burcky.

A practicum student or students in the gerontology department at SIUE could compile the index, Burcky said. However, students would not be available until the winter quarter begins Jan. 3.

THE OTHER job description, drafted by committee member Nan Henderson, outlined duties of an informational and referral specialist who would man the office.

According to the description, the specialist would interview seniors to obtain appropriate information and determine the referrals that are necessary; link seniors to the appropriate agency designed to eliminate or alleviate their need; look for gaps, overlaps and duplications in services; relate problem areas to the committee; and assist in solving the problems.

Also, to complete, maintain and submit all required forms; maintain close contact with referral agencies;

complete and update lists of agencies and their services; handle complaints and concerns from seniors; and follow up on referrals by contacting the agency and then the senior if reassessment is needed.

EDUCATION AND experience for the position would require a minimum of two years of college, one year of experience in dealing with the public; and a strong social work interest and background, the description said.

The information and referral specialist would operate the office six hours per week. The office would be staffed by volunteers the remainder of the time.

Establishment of an informational and referral office was recommended to the committee in a needs assessment report prepared by SIUE student Ruth Roko.

BURCKY SAID the office could not open until the cross-index file was completed and funds approved.

The committee is scheduled to meet again at 3 p.m. Thursday, Dec. 11, at City Hall.

Mayor Von Dee Cruse has offered space for an office in the City Hall. However, senior John Petish told the committee the office should be in the township hall.

IN A Dec. 2, 1977, letter inviting U.S. Rep. Mel Price, D-Belleville, to the dedication of the hall, Granite City Township Supervisor Nelson Hagmeyer wrote that the building would provide "facilities for senior citizens."

Besides office space, senior Gertrude Barkley said storage space is also needed.

She said she has to carry senior craft items in her car from her home to the hall.

Ordinances passed for tavern expansion

By Bill Bagby
Staff writer

GRANITE CITY—Buck and Jan's Den will be expanding, thanks to the Granite City Council.

The aldermen passed two ordinances Tuesday night allowing the expansion of the tavern, located at 2401 State St.

THE FIRST ordinance provided for "use variance" amendment to the zoning ordinance. The other ordinance provided for the city vacating 6.45 feet of an 11.45-foot public sidewalk on 24th Street for a distance of 33.36 feet.

The expansion will add six tables to the establishment, said owners Buck and Jan Pyatt.

However, some neighborhood residents were opposed to the expansion.

MARYAN HALL, 2407 Edison Ave., presented a petition to the council signed by 40 residents opposing the plans.

Residents, she said, had complained the establishment caused parking, noise and trash problems.

Hall said the place would become "commercialized" by expanding and wanted it to remain a "neighborhood tavern."

JOAN POMER, 2413 State St., said she and her husband, Ed, sometimes cannot park their cars in front of their home due to the number of autos from the tavern parked on the street.

"We have to park down the street so someone who wants a drink can go in there and drink," Pomer said. "I hardly believe Buck and Jan's is causing the parking problem."

'Children's Tree' helps area's needy children

Granite City K mart and the Press-Record/Journal are co-sponsoring the "Children's Tree" to help the area's needy children at Christmas.

"We believe that all children in today's society deserve a chance to have a merry Christmas," according to a K mart official. "However, with unemployment and economic times being what they are, some families will have a hard time supplying the basic needs for their children, let alone buying Christmas gifts."

The program works like this:

- At K mart's entrance there is a large Christmas tree and on the tree are angel tags.
- On the back of each angel tag is the first name of a child and the age, from 1 month through 12 years. Also included will be the child's clothing size. The angel tags will be numbered.
- To help a needy child, pick an angel from the tree. A book will be available so that the selected name can be recorded.
- Buy a clothing gift for the child, wrap it and return it by Dec. 18 to K mart. Make sure to connect the angel tag to the gift.
- On Dec. 18, the gifts will be bundled according to each family's last name and picked up by the family.

So that the less fortunate children in the area can have a happier Christmas, K mart and the Press-Record/Journal urge everyone to participate in this worthy Christmas cause.

Police academy not like movies

By Bill Bagby
Staff writer

GRANITE CITY—The real police academy is nothing like the movies.

This was discovered by four Granite City Police Department patrolmen who graduated Nov. 7 from the police academy at Belleville Area College.

PATROLMEN Jeff Connor, Richard Miller, Dennis Shemwell and George Diak Jr. ranked first, second, third and seventh in a class of 20 students.

Also attending the academy was Pontoon Beach Officer Roger Smith. Two other students, Dale Bowles Jr. and Jimmy Smith II, were sponsored by the Pontoon Beach Police Department.

The 10-week program started Sept. 2. A one-hour physical training session, including running, sit-ups and push-ups, started at 6:30 a.m. Monday through Friday. The training, said Police Chief Bill Harris, was "tougher than the Marine Corps."

ON THE LAST day of training, the students had to run 8.2 miles, Connor said. Diak finished first, completing the run in slightly over 52 minutes. Both Connor and Shemwell completed the run in 56 minutes.

The entire class finished the run

within one hour and 10 minutes, Connor said.

The physical training was followed by classroom training from 8 a.m.-noon and 1-5 p.m. Some night sessions were also held.

STUDENTS WERE taught areas of law enforcement including criminal law, the vehicle code, first

aid, how to make an arrest, defensive tactics, discharging firearms, and public relations, Connor said.

"It was a good program," said Shemwell, 27. "The instructors were very good."

The training culminated at the Nov. 7 graduation ceremony.

CONNOR, 23, received the Illinois Police Chiefs' award for being the outstanding student in the class.

"I was surprised," Connor said. "It was an honor to get that award."

Connor also received awards for having the highest grade point average and for being the best shot in the class, Harris said.

TODAY'S TRAINING is more extensive than in the past, Harris said. When Harris joined the police force in 1964, he said there was no physical training program. Harris participated in classroom training

for three weeks at the Granite City YMCA during the day while he worked at night, he said.

The police academy's faculty consists of local law enforcement and criminal justice personnel, said academy director Bill Burns, a 10-year veteran of the St. Louis Police Department.

"HOWEVER, it's not enough to be a good police officer," Burns said. "They also have to be able to convey that."

There have been 358 people graduate from the academy since its first class in 1971. Burns has been an instructor in BAC's administration of justice program since 1975 and became director of the academy in 1984.

Since a post-academy comprehensive exam was implemented by the state to test graduates in 1984, 5 of 69 graduates have passed the exam on the first try, he said.

THE EXAMINATION is a useful tool to measure not only what an officer has learned but also what an academy delivers," Burns said.

Now that the training is completed, the graduates realize that Hollywood's version of the police academy is much different from their experience.

"That's the movie," Shemwell said. "This is real life."

Eticam annexed

By Bill Bagby
Staff writer

GRANITE CITY—Annexation of 6.6 acres owned by Eticam Inc. of Warwick, R.I., has been approved.

Eticam is planning to build a \$9.8 million industrial plant on the property, located about two miles south of Heidman Steel Products on Illinois St.

THE GRANITE CITY Council approved two ordinances Tuesday night dealing with the annexation.

The aldermen also recently approved the annexation of land adjacent to Eticam belonging to the Norfolk & Western Railway. This land had to be annexed before annexation of the Eticam property could be accomplished.

Once completed, the plant would create 50 to 75 jobs for the area, a spokesman for Eticam said. All hiring will be done locally, and training will be provided for all new employees, he said.

ETICAM USES a West German process to extract copper, nickel, chrome and precious metals from wastewater for resale purposes. The metals are sold to jewelry and electronics industries.

Granite City Assessor Harold Von Dee Cruse was endorsed for state senator in 1962 at a meeting of Granite City Democratic committeemen yesterday at the home of Harold Hiltner. Cruse completed his fourth year as township assessor and was re-elected to a second term. He is a former Granite City Alderman.

Quad City

New name, new cover for telephone directory

A new design and name, "Ameritech PagesPlus," appear on Illinois Bell telephone directories being delivered to customers in the Quad-City Area.

The new look is the mark of directories published by three partners, Donnelley Directory, Ameritech Publishing of Illinois and Illinois Bell.

The trademarked cover design is in vivid red and yellow, and features the Bell symbol surrounded by supernova swirls. A supernova is a star which suddenly shines with great brilliance.

The cover design will be identical on all future directories to distinguish them as the official publications of the three partners. The same cover will appear on all Ameritech directories in Indiana, Michigan, Ohio and Wisconsin.

The "Plus" portion of the title refers to a variety of telephone tips in the Customer Guide section at the front of the alphabetical listings, and information added to the Yellow Pages sections.

"Ameritech PagesPlus is a continuation of a longtime record of accurate, dependable service to our customers," said Mary McCormick, Illinois Bell community relations manager.

"We have put a universal face on the front of the directory," said McCormick. "But we preserved local identity on the back cover. That's where users will be able to read something of the history of their community or region."

The back cover of the Granite City directory carries a description of the Mississippi River, its history and the areas through which it flows.

The new Yellow Pages include detailed maps and street guides of the area served. They include transportation information, the seating diagrams of local theaters and arenas, and varied sites to visit in the region.

Part of the community information section includes pages printed in large type, listing agencies and organizations of interest to senior citizens.

Two Granite City women honored for achievements

By Donna Kimbro
Staff writer

Lela Gunning, a well-known craft artist, and Jeanette Scannell, an employee of the federal government in St. Louis, were both honored for achievements related to their professions.

Mrs. Gunning received an eighth-place national award and \$50 check from Commercial Flocking of Carolina for her entry in the "Designing with CraftFlock" contest.

For the contest, designers were asked to use the CraftFlock consumer flocking system to coat their handmade items. The unique system gives craft and hobby items a more complete and richer, velvet-like finish as well as protecting the items from abrasion.

Founded in 1975, the Society of Craft Designers helps members effectively serve the consumer craft industry. It has 350 members and 30 sponsor companies and represents over 80 different crafts and 21 different functions.

Jeanette Scannell entered federal service two years ago and is associated with the Automated Logistics Management Systems Activity (ALMSA) of the U.S. Army Materiel Command.

She was one of four women selected from 600 women at the St. Louis facility for a profile of ALMSA workers.

The four women's backgrounds and goals vary, a spokesman said. They were featured in the October issue of the ALMSA Printout for the observance of Federal Women's Week.

Mrs. Scannell is married and the mother of five children. She has continuously been involved in community and civic affairs as well as assisting her husband with two men's clothing stores.

She formerly managed the Tri-Cities Area Chamber of Commerce office. She explained her theory on combining work responsibilities with family duties, noting that because her husband travels about 75 percent of the time, she has to make a lot of decisions on her own.

"The way I handle it is to stay organized. If I'm at work, I organize myself; if I'm at home I do the same."

"I always look at my priorities to see what I need to do first. But I think we can get everything done and handle the pressures that come with it if we really want to," Mrs. Scannell said.

County will assume EPA duties at three landfills

The Madison County Board on Nov. 19 authorized the county to take over monitoring of landfills in the county and enforcing laws pertaining to them.

The state Environmental Protection Agency has previously had monitoring and enforcement responsibilities.

The resolution does not affect city-owned landfills, according to board member Dick Worthen, Alton, of the board's environmental control committee.

The county will take over monitoring the Barton Landfill near Edwardsville, a landfill on Chouteau Island and another near the Quad-City Area.

Worthen said that, currently, only officials from the state can enforce EPA rules on landfills. And, he commented, it is "difficult to find the appropriate officials when you need them."

The state, he said, allows counties to take over monitoring and enforce-

ment and will help counties pay the cost of doing so.

Madison County could raise the rest, he said, by sharing a per-load "tip" on haulers.

Worthen said no specific enforcement plan has yet been formulated but it might include posting deputies outside the landfills at certain times to check on permits and the content of loads being hauled.

The resolution passed Wednesday provides for the hiring of one part-time person to help with the program.

The state EPA, Worthen said, will provide training for those charged with monitoring the landfills.

County director of administration Jim Monday said a recent Supreme Court ruling indicates that the county will only be able to enforce state rules, not rules imposed by the county.

In that ruling, a St. Clair County ordinance pertaining to landfills was struck down.

Firemen selling smoke detectors

GRANITE CITY — The Granite City Fire Department has a limited amount of smoke detectors for sale to area residents.

The smoke detectors can be purchased at the main fire station, 2300 Madison Ave., said Assistant Fire Chief Walmer Schmidtke.

"They make a great Christmas gift," he said. The smoke detectors, purchased in cooperation with Firefighters' Local 253, were originally sold during Fire Prevention Week, Oct. 6-10.

Retail sales higher

Illinois retailers reported sales gains last month, posting a 6.97 percent increase in October over the same month a year ago. All three geographic regions reported increases. Northern Illinois posted a 9.02 percent rise in sales, followed by metropolitan Chicago with 7.06 percent and Central-Southern Illinois with 2.51 percent.

Churchich resignation accepted

The resignation of Police Chief Bob Churchich was accepted by the Hartford village board Nov. 18.

Churchich, who will take office as Madison County sheriff Dec. 1, said in his letter of resignation that he leaves the village with "mixed emotions."

"A bond of closeness, honesty and cooperation between myself, the citizens and village board has existed during my six years as police chief," he said.

"I hate to lose him," said Mayor Charles Hendricks. "He has been a great asset to the community. He has stabilized the police force and been a good friend to the senior citizens of Hartford."

Also resigning, effective Dec. 1, is police clerk, Janis Moore, who will be employed by the sheriff's office.

Hendricks told village trustees he will be accepting applications for the position of police chief.

Marilyn Prickett was authorized to act as police clerk for the remainder of the fiscal year ending April 30, 1987.

In another matter, trustees agreed to continue participation in a class action suit against the Illinois Department of Revenue. Village Attorney Bill Cox advised the board not to abandon the suit, which challenges the state practice of keeping interest monies earned on municipalities' shares of sales taxes.

Four adults started the program on Friday night. Ray Schultz, Albert Cauble and Maxine Abrams played the organ, under the direction of Carolyn Belling, teacher, and Marvin Lambert played the piano, under the teaching supervision of Jennifer Bolt.

Cyndi Brown, teacher and musical kindergarten instructor, served as master of ceremonies for the program, which featured students Matthew Gauen, Daniel Gauen, Melissa Murray, Neil Gauen, Penny Tingley, Travis Terrell and Carl McCallister performing on the piano. Michelle Minick, Mike Maier and Denise Brawley on guitar and Carla Shehorn and Lynn Pendegress on the organ.

Saturday night's recital was hosted by Burel Schmisser, owner, assisted by Susan Beasley, teacher. Students participating were Jenny Lindsay, Jaime Somers, Kathy Charter, Amy Eckmann and Shawn Schmidt, all playing the organ. Jesse Wright, Adam Barr, Tabitha Spechtig, Katrina Butler, Carl Carnes, Elizabeth Sabo, Kim Annable, John Arzuagas, Meredith Knezevich, Craig Myers Jr., Larren Mosby, Peggy Price, Geneva Sanders, April Glowacki and Athena Harris played the piano. Zachary Huff, Lonnie Betts and Amy Nemeth performed on guitar, Scott Tripp, voice, and Chris Charter, drums.

Other teachers present were Joe Bolt and Karen Tucker.

Tax reform may affect TIF plans

According to the Department of Commerce and Community Affairs' Illinois Economic Report, some TIF (Tax Increment Financing) by local governments in Illinois could be affected by the tax reform legislation recently passed by Congress.

Bond buyers for some TIF redevelopment projects that are now eligible under Chapter 24, Illinois Revised Statutes, 1965, par. 11-74.1, may no longer be eligible for tax exemption.

Activities financed through bond procedures that may be affected include:

- Purchase, assembly and clearance by the municipality of land for resale to business developers.
- Purchase and rehabilitation of a commercial/industrial building and site within the redevelopment area for resale or lease.
- Provision of a revolving loan fund for reduced interest loans to commercial/industrial firms, or an interest subsidy program for private financing.
- Financing of job training for a single business employer in a redevelopment area.

Tax-exempt status for income from bonds where the tax increment bond issue will finance public infrastructure improvements — regular governmental functions — will probably be retained, DCCA said.

Freezer sought for dead dogs

By Norma Mendoza

Correspondent
NAMEOKI - Dead dogs and overnight guests are unwelcome after three days, according to an old Spanish proverb.

So far, guests haven't been a problem for township officials, but three days is pushing it for the dead dogs.

"We've had a real problem out here," Supervisor Harry Briggs told trustees at the township meeting Nov. 17. "The freezer went out where we keep the dead dogs until the rendering plant picks them up."

"We're going to have to buy a new freezer real soon."

Dee Stoyanoff of the township office explained the procedure for disposing of dead animals, usually dogs, picked up along township roads.

When dead animals are reported, acting Rabies Control Officer Bobby Jene Perrin or his crew pick them up and store them in the freezer kept for that purpose.

Stoyanoff said sometimes pet

owners call to have dead pets picked up.

When the freezer is full, the rendering plant is called to pick them up.

"It depends on the size of the dogs," Stoyanoff said.

At the township meeting, Rabies Control reported six dead dogs picked up.

What happens when the freezer is broken?

"It's a mess," Stoyanoff said. "We've had to find other means of disposing of them," Briggs said.

Stoyanoff said the animals are buried, which means more work for the crew plus the problem of finding a place to bury them.

Stoyanoff said the dead animal disposal is a service the township provides that many people are unaware exists.

"They should ask themselves what would happen if we didn't pick them up," she said.

Meanwhile, she said, a new freezer is eagerly awaited.

Town Clerk Lee Ridgeway is getting estimates.

Major Case Squad fund now at \$1,770

By Valerie Evenden
Staff Writer

Since it was formed in 1965, the Major Case Squad has existed on donations of money and equipment from area businesses.

For the first time in its 21-year history, the squad is trying to raise money — \$75,000 — to purchase a better radio system and update its crime-scene equipment. Contributions here so far total \$1,770.

WHILE PARTICIPATING in major cases, such as the Nov. 17 slayings in Madison of Hugh and Bertie Stuart and Ruth Ann Kapoff, and the late April murders of Carl and Susan Hoffman in Granite City, officers receive their regular 8-hour pay from the department they represent.

Any overtime work and other expenses incurred by the officers are donated on an individual volunteer basis.

The squad usually disbands after five days on a specific case, but an extension can be granted as occurred in the Hoffman murders when a strong lead was being developed.

LOCAL EFFORTS to help the Major Case Squad in its fund-raising drive are being spearheaded by the Crime Prevention and Awareness Committee of the Tri-Cities Area Chamber of Commerce.

A goal of \$5,000 is being sought from the Quad-City Area's business and civic groups, along with individual gifts from residents.

Legal contributions to date total \$1,770. All donations are tax deductible and checks may be made to:

MAJOR CASE SQUAD, c/o Granite City Police Dept., 330 Madison Ave., Granite City, Ill. 62040.

Granite City Police Chief Bill Harris first brought the squad's financial problems to the Chamber committee's attention, citing the squad's

2,000 man-hours spent helping to clear the Hoffman case.

More than 250 volunteers were conducted by squad members in the course of that investigation, he said.

ABOUT \$45,000 of the money would go for a radio network to be based in the squad's van, which was donated last year along with a used station wagon. Prior to that time, the squad had no vehicles.

A radio system is critical to operations as squad members converge on a crime scene with up to 50 investigators when a major crime occurs, Harris explained.

Instant communications are essential, as the squad will not take on a case more than four hours old. WITHOUT an adequate radio system, coordinating information and officers during an investigation has been difficult.

Officers from various jurisdictions with radios in their vehicles usually are on different frequencies. Part of the money raised will go to buy more investigative and emergency equipment, including a computer to link the squad with REJIS, the regional justice information system, officials said.

IT WOULD PAY also for fingerprinting kits, word processors and typewriters to write reports, telephoto camera equipment, portable records, surveillance equipment, squad jackets and caps, and portable generators and lights to work crime scenes at night, officials said.

The Major Case Squad is made up of 291 commissioned officers from St. Louis, St. Louis County and its municipalities, Franklin, St. Charles and Jefferson counties in Missouri, the cities of Granite City, Madison and other communities in Madison County, and St. Clair and Monroe counties in Illinois.

Burglaries increase

GRANITE CITY — Burglaries are on the increase.

Nineteen more burglaries were reported in October, as compared to the same month last year, said Police Chief Bill Harris. It also appears there will be an increase during November, he added.

In an effort to prevent burglaries or aid in the capture of burglars, Harris said the assistance of the public is being requested. The Granite City Police Department requests the following actions be taken by local residents:

- Establish neighborhood watch programs. This can be done by contacting Officer Curt Walkenbach.
- Keep alert to strangers or suspicious vehicles. Record license numbers, if possible.
- Photograph all expensive jewelry, silver items, furs, stereo equipment, etc.
- Place personal identification numbers on items, when possible.

Record the serial numbers of items which contain serial numbers.

Obtain descriptions of expensive jewelry items from the store where the items were purchased or the insurance company. Keep descriptions handy to give to police should a burglary occur.

Advise neighbors before leaving on vacation. In addition, Harris said the public is being asked to contact the police department if any suspicious vehicles or persons are seen in the area.

The police should also be notified if several telephone calls are received where no one speaks after the phone is answered, he said.

For additional assistance or information, the Granite City Police Department or Walkenbach can be contacted at 451-9700.

Police study 6 break-ins

GRANITE CITY — An unknown teenage boy is blamed for a house burglary and five attempted burglaries Wednesday night.

The incidents were reported to Granite City authorities between 7:30 and 8:15 p.m. Nov. 19. Residents of the six houses were at home when the incidents occurred.

The youth entered the home of Madison County Board member Basil Eftimoff, 2800 Michigan Ave., and took a set of keys to a grandfather clock, a wallet containing \$200 and a Suzuki violin autographed by Jack Benny. The intruder left on foot.

Eftimoff and his wife, Anita, were sitting in a television room of the home. They were alerted when their dog began barking and growling and ran into another room.

Before that burglary, the youth tried to enter five homes on Yale Drive and Wilson Park Lane.

Pat Hewlett, 3149 Yale, said the boy broke a window and tried to enter her home through a door. Melodi Rayl, 3156 Yale, heard a loud noise. When she went to investigate, she found an open window and observed the youth's hand reaching in. The boy began beating on the window and then left.

Mr. and Mrs. Fred Laster, 219 Wilson Park Lane, were sitting in the living room when the boy heard noises coming from the kitchen. Two doors were discovered open. The Lasters then heard a third door close.

A relative saw the youth running from the backyard toward the front of the house. Two guests arriving at the Laster home saw the boy running toward the home of Warren Tolbert, 211 Wilson Park.

Tolbert said he was sitting in the living room of his home with his son when they heard the youth open the front door. The intruder apparently saw them and ran.

The boy also threw a rock through a basement window at the home of Glenda Morelock, 303 Wilson Park Lane.

He is described as being 15-17 years old, 5 feet 5 inches tall, with collar-length curly dark brown hair. He was wearing a blue jean jacket and pants. His face was either burned or wrinkled, making him appear older.

YOUR STARS

By Stella Wilder

SAGITTARIUS (Nov. 22-Dec. 7)—Excitability is one thing; loss of control is another. Encourage the one; keep the other at bay. (Dec. 8-Dec. 21)—Your somewhat unyielding approach to present problems could be deemed stubbornness. Try for flexibility. **CAPRICORN (Dec. 22-Jan. 6)**—Though you can ride to success on another's coattails this week, it would not be a good idea to do so. (Jan. 7-Jan. 19)—Take care that a false friend does not create problems for you this week. Best bet: Go it alone. **AQUARIUS (Jan. 20-Feb. 3)**—You would be wise to look a gift horse in the mouth. It may be far from what you want or need

now. (Feb. 4-Feb. 18)—You may come close to losing a close friend this week. Quick and selfless action saves the relationship. **PISCES (Feb. 19-March 5)**—You could easily be talked into making the wrong move this week. Read between the lines carefully. (March 6-March 20)—Deception, whether by you or toward you, creates an atmosphere of tension and failure. Lay cards on the table. **ARIES (March 21-April 4)**—The spirit of revenge will do you more harm than good. Listen to your heart; forgive, even if you can't forget. (April 5-April 19)—Chance plays a great part in your success this week—but

preparation still is necessary. **TAURUS (April 20-May 5)**—Only if you are thorough can you hope to succeed this week. Loose ends create an atmosphere of failure. (May 6-May 20)—Contrary to expectations, blood proves no thicker than water this week. Friends serve you as relatives. **GEMINI (May 21-June 6)**—Your ability to be self-motivated makes this an especially good week for you. Learn from another's error. (June 7-June 20)—This is a week for giving, not receiving. Don't be disappointed, however, if motives are questioned. **CANCER (June 21-July 7)**—A certain lack of sureness may

cause others to mistrust your leadership. Even so, you must carry! (July 8-July 22)—Because you chafe under authority, you will do best if you work alone. Direct your own destiny. **LEO (July 23-Aug. 7)**—Your dislike of restraint may cause you to be uncomfortable in more than one situation. Bear with it. (Aug. 8-Aug. 22)—Effort along practical lines brings practical rewards. Allow no one to set you dreaming of the impossible. **VIRGO (Aug. 23-Sept. 7)**—Don't be surprised to have others set their own ambitions aside in favor of yours. You hold the aces. (Sept. 8-Sept. 22)—Your energy may be down somewhat

this week. Even so, gains are made if you follow plans made recently. **LIBRA (Sept. 23-Oct. 7)**—Do nothing to upset the natural order of things. Success depends upon following preset, pretested plans. (Oct. 8-Oct. 22)—Stop worrying about your state of health. Give nature a chance to heal old wounds. Look ahead, not back. **SCORPIO (Oct. 23-Nov. 7)**—Apply yourself to the business at hand. Don't stick to any schedule that makes no allowance for the unexpected. (Nov. 8-Nov. 21)—Employ your communicative powers fully. You will have to work at it if you expect success.

Oh, yes?

QUESTIONABLE ADVICE: Tony Michalak, who plays the happy-go-lucky Murray, isn't really overwhelmed by the advice given by Jeff Hirsch, the well-meaning brother, Arnold, in the SIUE Theater production of the Herb Gardner comedy, "A Thousand Clowns," which plays in the Communications Building theater on the Edwardsville campus at 8:15 p.m. Dec. 4, 5 and 6 and at 2 p.m. on Dec. 7.

This year's "Tree of Lights" goal will be announced at the luncheon by Edwin C. Slate Sr., chairman of the Salvation Army Advisory Board.

Contributions to the annual fund-raising drive will be used to finance the holiday assistance program, which provides food baskets, clothing and other gifts to needy area families during the Christmas season.

The guest speaker, Maj. Lodge, is a 25-year officer in the Salvation Army and has served at the St. Louis Midland Division Headquarters for the past nine years.

No applications will be taken Thanksgiving Day, when the office will be closed.

Operations will resume Friday and Saturday, Nov. 28-29, and will continue daily from Monday, Dec. 1 through Friday, Dec. 5, Capt. Hartley said.

County enacts \$50 million budget

The Madison County Board on Wednesday approved a fiscal 1987 budget totaling \$50.9 million.

The budget is up from this year's \$49.3 million and, officials said, is balanced.

The tax rate should remain close to this year's 80.1 cents per \$100 assessed valuation. The exact rate will not be known until the county's assessed valuation is tabulated next year.

The tax levy will be \$11,528,095, down slightly from \$11,528,670 this year.

A last-minute effort to increase the budget for the environmental control department during Wednesday's meeting failed.

An amendment sponsored by board member Dick Worthen, Alton, would have increased that department's budget by \$7,000 to fund an additional part-time worker.

Worthen said the workload for the two-person department has increased dramatically in recent months and that the additional person is needed to help. He said fee increases would pay the person's salary.

However, the board's finance committee said the budget of the department was based on revenue projections made without the fee increase and that, until the department has the money in hand, no change should be made in the budget.

Board member Alan Dunstan, who serves on the finance committee, said the board's policy has been to prohibit departments from asking for increased budgets based on fee increases.

That is because so many departments do not generate revenue and must be subsidized by those that do, he said.

Where the county to allow departments to earmark increases for their own use, it would "open a can of worms," he said.

Six obtain petitions for Madison election

MADISON — Six residents have obtained candidacy petitions in anticipation of running in the April 1987 city election.

Madison voters will choose aldermen for four-year terms in Wards One, Two, Three and Four. Petitions are available in the office at the City Hall, Rich Tulka, city comptroller, said.

The first day to file petitions is Jan. 19, the final day to file is Jan. 26 before 5 p.m.

Those picking up petitions include Paul Ashford, incumbent, and Andy Egan, both in Ward One; Robert Grizzle, incumbent, and Ron Grzywacz, both in Ward Two; and William Gushie, incumbent, and John Hamm, both in Ward Three.

Don Garrett is presently an alderman in Ward Four.

First Bancorporation to increase dividend

First Granite Bancorporation Inc., a Granite City-based two-bank holding company, has declared a 40-cent per share dividend, payable Dec. 15 to shareholders of record on Nov. 28.

Company president Melvin C. Williams said the board "is pleased to report that the fourth-quarter dividend includes both the regular quarterly dividend of 20 cents per share as well as a special dividend of 20 cents per share."

On an annualized basis, the 1986 dividend will total \$1 per share, an increase of 11.1 percent over the 90-cent per share dividend paid in 1985.

Contract for Wilson

S.M. Wilson & Co., general contractor in Granite City and St. Louis, has been awarded a contract to build a 20,000 square-foot professional office building for St. Mary's Hospital in Centralia. The new facility is scheduled for completion in the summer of 1987.

Christmas journey to Kimmswick

The Granite City Park District will sponsor a one-day Christmas trip to historic Kimmswick, Mo., on Saturday, Dec. 6. The cost of the trip will be \$9 per person, which is the cost of transportation.

Registration will be taken Monday.

The bus will leave the Wilson Park ice rink at noon Dec. 6. Lunch will be available at either the Blue Owl Restaurant and Bakery, specializing in home-cooked meals and unusual

desserts, or The Old House Restaurant, which has more of a dining room atmosphere.

The afternoon will be spent browsing in 13 unique shops in the town. The trip will begin at a house tour of six mid-19th century homes decorated for Christmas.

There will be Christmas music and carolers in the streets of Kimmswick during this time.

According to a spokesman from Kimmswick, the town goes "all out" for the Christmas candlelight tour, and it is a very busy time there.

"It will be a festive afternoon and evening to get yourself in the holiday spirit," a spokesman said.

The time of return will be announced at the time of registration, which will begin on Nov. 24 at the Wilson Park office at 9 a.m. The park office will be closed the Friday after Thanksgiving.

More room for Buck and Jan's (Continued from Page 1A)

said Granite City attorney Randall Robertson, representing the Pyatts. THE ESTABLISHMENT, he said, currently has 18 off-street parking places. This number, he said, complies with city law and would still comply even after the expansion was completed.

To alleviate the parking problem, Robertson said, employees of the tavern would park away from the building, creating 8-10 more spaces for customer parking.

The Pyatts will pay \$1,000 to the city for the municipality vacating the sidewalk, Robertson said.

MAYOR VON DEP CRUSE referred to the objecting residents as a "special interest group."

The county's general fund will increase to \$14,004,099 from \$11,936,983 because it now will include seven tax funds that used to be separately special funds.

The General Assembly early this year passed legislation which requires that real estate taxes for tax collection, elections, the emergency services and disaster agency, the supervisor of assessments, maps and plans, property records and audit must be put in the general fund.

Until now, these have been special funds in Madison County.

Finance committee chairman Bill Little, Alton, told the board that although the 1987 budget is balanced, it may be the last balance if a state-mandated devaluation of valuation continues.

The assessed valuation of the county has dropped, in part because of a state-mandated devaluation of farmland.

Book review

A NOVEL IDEA: Lori Porter of Granite City, a student at the Granite City Campus of Belleville Area College, uses the campus library for a class assignment.

Crew headed by youthful supervisor

Scott Voyles is not undecided about a career, and with the help of Belleville Area College he already has one.

Less than a year after enrolling in the college's construction management technology program, Voyles, of Belleville, was hired by Poettker Construction of Bresse as project manager of BAC's Granite City Campus renovation project.

"I was just looking through the BAC catalog one day and stumbled across the construction management program. It sounded very interesting, so I decided to give it a try," Voyles said.

Voyles, 19, is the youngest employee with Poettker Construction. He supervises a crew that's many years his senior.

"His age is not a factor. Everybody loves him," said owner Chuck Poettker. "He reminds me of myself 10 years ago. We've really been pleased with Scott's ambition and willingness to accept challenges."

Voyles had just graduated from Belleville Township High School West when he enrolled at BAC last year. During his first year of college, he interned on two different construction projects before landing the job with Poettker.

"Those internships enabled me to get a taste of everything, from constructing roofs and walls to pouring cement," he said.

Voyles' responsibilities now include supervising the work crew, managing the pay schedule, and obtaining pricing information from subcontractors.

"Scott's orientation to construction management through BAC has been very good," said Poettker. BAC's construction management

Scott Voyles

program prepares students to handle a vast range of responsibilities by combining classroom and field experience. For Voyles, that experience paid off.

Since he now works during the day, he attends classes at night. He hopes to complete his associate of arts degree within another year. But Voyles is already considering

ways he can become more productive in his present job. "I'd like to get more into computers. I think they can save us time and money," said Voyles.

And what do his parents think about all of this? "Well, they're just glad I'm learning, and that I've found something solid for the future."

Seminar scheduled

A seminar on motivating and understanding employees has been scheduled for Monday, Dec. 1, at the Belleville Campus of Belleville Area College, 2500 Carlyle Road.

BAC's Small Business Development Center is sponsoring the program, from 6:30 to 10:30 p.m. in room 1410. Cost is \$20 per person. For more information or to make reservations, the number to call is 235-2700, extension 201.

Rob Nebgen, president of Nebgen Auto Electric Inc. of Belleville and a part-time BAC instructor of management, will conduct the seminar.

School play slated

The Speech Department of Granite City High School will present the winter play, "Barefoot in the Park," on Wednesday and Thursday, Dec. 3 and 4.

This Neil Simon three-act comedy will be directed by F. Gordon Mueller, speech and drama instructor at the high school. Beverly Scroggins will be the technical director and the set designer.

Curtain will be at 7:30 p.m. in the high school auditorium, and all seats are \$2. Tickets are on sale in the cafeteria during the lunch hours and will be sold at the door. Activity tickets are accepted for this production.

The newlyweds, Corie and Paul Bratter, are played by Chris Bieniecki and Bill Puhse. Corie's mother, Ethel Banks, is played by Anissa Fields. Victor Velasco, an eccentric neighbor, is played by Myles Epperson. Supporting players are: Jon Yates, telephone repairman, and Dave Malotki, delivery man.

"Barefoot in the Park" was Simon's first smash hit on Broadway and was made into a successful movie with Jane Fonda and Robert Redford. Life magazine hailed the play as "one of the funniest comedies ever," and Time magazine called it "demonstratingly funny."

Student assistants to the director are Annie Connolly and Laura Melton. Co-chairmen for props are Diane Martinez and Robbie Orahood.

Senior dialogue set

"How Non-verbal Behavior Affects Our Interactions" will be the next subject of "Dialogue with Senior Citizens" at SIUE.

The session is scheduled Wednesday, Dec. 3, from 1:30 until 4 p.m. in the Maple-Dogwood Room of the University Center.

Robert Engbreitson, professor of

psychology at SIUE, will discuss how an individual can become a more effective communicator through non-verbal behavior.

"Dialogue" is an educational and cultural enrichment program for older adults and is sponsored by the SIUE Gerontology Program. Admission is free and the public is invited.

Girl Scouts angered at decision to close all supervised camping

Members of the River Bluffs Girl Scout Council have expressed outrage at a decision by the board of directors to pull out the staff at Camp Butterfly and close all supervised camping.

The board voted at the last meeting to allow only troop camping, where campers are supervised by their own troop leaders.

The members' anger seemed to focus on the fact that the board made the decision without consulting with or even informing the troops or leaders.

"All over the council, people are upset about this," said troop leader Sharon Opp. "No one has bothered to tell us what is going on and our efforts have been frustrated to express our concern to the board members."

Camp Butterfly, 960 acres in Farmington, Mo., is the largest of the four Girl Scout camps in the council. The camp had been open to more than 9,000 campers in 600 troops for 10 years.

"The board has the responsibility for the first management of the council," said Executive Director Donna Lowry. "We had been monitoring the camp for quite some time and, because of the low participation there, we felt the funds would be better off spent for the troop camping."

"Because this deals with individual girls and is not a troop matter, the board felt it should exercise its responsibility and did not consult with the troops," she said.

The decision to close the camp came as a shock to the leaders and scouts after the council's last board meeting, Opp said.

The board initially discussed raising fees for individual campers, but voted instead to close it altogether. In a statement released Nov. 14, the directors said they regret that the members are unhappy with the decision.

"The small number of girls participating, after concentrated recruiting efforts, led the board to decide to reallocate the financial aid and human resources used for the

program to improve and increase troop camping," the statement read.

Troop leaders and Girl Scouts are complaining that closing camp at Camp Butterfly will rob the girls of their only chance at many group activities, including sailing, swimming, horseback riding and canoeing. Toni Mack, a troop leader, said the

members were writing letters and forming groups to address the issue at the board's annual meeting this week.

"We are hoping they'll give it another try and give us a chance to see if it will work," Mack said. "But if nothing else, we want to let them know that a decision of this

magnitude cannot be made without input from the field."

Board President Marty Nelson emphasized that the camp has not been put on the market for sale and is still available for troop camping, where leaders accompany the troops and provide all activities and supervision.

"We have only discontinued the resident camp program," she said.

"This does not mean we are closing the whole camp."

Lowry encouraged the scouts to use the camp for troop camping and mentioned that arrangements had been made with three other Girl Scout councils to provide resident

camping at their facilities.

Opp said the members are angry about being left out of the decision and not being fully informed—even now — of the reasons for closing the camp.

"We feel our concerns have not even been addressed, never mind answered," she said.

Elizabeth Bodnam

GC student selected for Presbyterian program

A 19-year-old coed from Granite City will be featured in a slide presentation, "Lift Up Your Hearts," being produced by the Synod of Mid-America of Overland Park, Kan., for the Presbyterian Church (USA).

Elizabeth A. Bodnam, a sophomore with a double major in English and mass communications at Lindenwood College, St. Charles, Mo., was selected to be a part of the presentation that will focus on outstanding students attending colleges and universities who are recipients of Presbyterian Church scholarships.

The slide show will be shown at the national meeting of the Presbyterian Church as well as at regional and local church functions. The daughter of Mr. and Mrs. B. Edward Bodnam of Granite City, she is the recipient of a \$1,400 annual scholarship from the Presbyterian Church (USA). She also receives \$3,100 annually in Lindenwood scholarships for high scholastic achievement, leadership potential and out-of-classroom involvement.

"I'm thrilled to have been selected," she said. "These scholarships mean a lot to me. Without this assistance, I wouldn't have the opportunity to attend Lindenwood," she said.

Lindenwood has provided me with opportunities. It has enabled me to become a better, more mature person, and the education I'm receiving is invaluable. With additional funding, I hope more students will have opportunities like I have at Lindenwood."

Bodnam is a 1985 honors graduate of Granite City High School who maintained a 4.6 (A) grade-point average (GPA) out of 5.0 while being active in high school and extracurricular activities. At Lindenwood, she maintains a 3.43 GPA (B-) on a 4.0 scale.

In high school, she was active in the Girls' Varsity Athletic Clubs,

Science Club, Pep Club, Foreign Language Club and Drama Club, where she participated in a number of high school plays.

She was a junior varsity cheerleader, member of the Pom Poms, secretary of the National Honor Society and treasurer of the Speech and Theatre Club.

At Lindenwood, she carries a full academic load in addition to being a member of the Cheerleading Squad, a newly-elected member of the Alpha Epsilon Rho broadcasting society and a representative of the Lindenwood Student Government and McCluer Hall.

A member of the First Presbyterian Church of Granite City, she attends St. Charles Presbyterian Church at Lindenwood. Recently, she volunteered several afternoons to aid the church's efforts in providing food and clothing to victims of recent Missouri floods.

In 1985, she was among 30 young women selected from more than 500 who auditioned for Steam Heat, the cheerleading squad of the St. Louis Soccer Steamers. As a member of the group, she participated in numerous promotional, community and charity events last summer. Last year, Bodnam also was Illinois DeMolay State Sweetheart.

Following graduation, Bodnam plans a career in news broadcasting, hoping to work for one of the major television networks.

Her career goal stems from her involvement this semester at the college's community radio station, KCLC-FM, where she does a variety of broadcasting activities for academic credit and practical experience.

One of the oldest colleges in the country, Lindenwood is a 160-year-old liberal arts school that serves nearly 2,000 students in more than 55 associate, undergraduate and graduate programs.

Newspapers Lighting Freedom's Way

We don't have to tell
you the names of those
countries where
Freedom of the Press
has absolutely no meaning.
Fortunately for all of us,
we do have those
cherished freedoms we all
take for granted and the
newspaper you hold in
your hands right now
makes that freedom
a reality.

A black and white illustration of a hand holding a rolled-up newspaper. The hand is rendered in a bold, graphic style with strong highlights and shadows. The newspaper is tightly rolled, and the front page is visible, showing a large, stylized number '4'. The background is dark and abstract, with sharp, angular shapes suggesting a night sky or a stylized landscape. The overall composition is dynamic and emphasizes the act of holding and reading the newspaper as a symbol of freedom.

Playoff game brings back memories

I still have that lump in my throat which nearly overwhelmed me just before the start of the football game between East St. Louis and Granite City at Memorial Stadium Nov. 8.

The winner would have the prestige of representing the southwestern portion of the state in the IHSA Class 6A quarterfinals. It was a thrilling moment for everyone in attendance. To these old eyes, it seemed that every possible sitting or standing space was occupied.

I looked around at those standing at attention in the press box and was deeply moved by what I saw: Standing rigidly at attention were eight members of the 1946 Granite City team that last won the Southwestern Conference championship.

As young Jake Varadian led the high school band in its stirring rendition of the national anthem, my eyes picked up immediately two men, Bill Schooley and Frank Kraus, both of whom played key roles on that 1946 team.

Both were misty-eyed as their gazes wandered over the murky and muddy playing field. The other six members of that team in attendance were Tom Carmondy, Bill Portell, Bud Warfield, Gene Gracie, Myron Bernard and Ernie Hopkins.

It was a great football game, even though our gridders lost. The outcome wasn't anywhere near as exciting and rewarding as that 17-14 defeat the Warriors of Ron Yates had dealt the Flyers midway through this brilliant season. That upset victory to end the Flyers' almost unbelievable 44-game winning streak, had captured the attention of not only the St. Louis metropolitan area, but of the entire United States.

As an old geezer, but with still good eyesight, I couldn't help but think that the cheerleaders and all the rest of the girls seem to get prettier and prettier. I can remember cheerleaders from the five high schools I attended while "working" my way through high school in Burlington, Iowa, Louisville, Ky., Cairo, Ill., and Lincoln, Ill. (twice).

As I watched the two football teams battling it out, it occurred to me that watching a football game on a Saturday afternoon along with nearly 5,000 fans was a fair-to-middling way to spend three or four hours.

It also passed through my mind that a town whose high school soccer and football teams came within inches of advancing to the state finals didn't have any reason to be ashamed.

Now, bring out the roundbells and start the basketball season.
